25X1A

[REDACTED]

[REDACTED] - Modulated Light Film Viewer

Date: 11 August 1964

25X1A

This was the initial visit to [REDACTED] since award of the contract on 7-15-64. Contact was with [REDACTED] (VP) and [REDACTED]

25X1A

25X1A

25X1A

The entire discussion was directed towards a mutual understanding of the research objectives. One of the most controversial aspects is whether the spot size of the flying spot can exceed the bit size of the information being viewed without loss of resolution. This unknown is universal among the industry and must be resolved at an early date.
